

Collection 0

Collection 2: Organic Experience

Electrical Usage

Presence:	Amount:
Present	Low

Explanation

I use a low amount of electricity. I try to minimise as much electrical usage that I use as possible. I play some video games at times but not very often. I try to use it for good and put some of my invention into what I make in the games I play wherever possible.

Mechanical Usage: Fuel

Presence:	Amount:
Not Present	N/A

Explanation

I do not use a vehicle at the moment.

Environmental Controls: Temperature

Presence:	Amount:
Present	Medium-High

Explanation

I do struggle with the temperature changes here. During the day I need some breeze-like temperatures indoors and then at night I tend to actually need the same breezes but with heat.

Environmental Controls: Humidity

Presence:	Amount:
Present	Medium-High

Explanation

I'm unable to fully sustain myself with the atmosphere here in America fully with the level of development that I am doing. I need to detox it at a regular rhythm with tobacco and the use of dehumidifiers.

Environmental Controls: Filtration

Presence:	Amount:
Present	Medium

Explanation

I use filtration at certain times, aiming to rather use the extractor fan than the air purifier. I have been ok with the regular air conditioning filtration. I'm living in the upstairs bedroom at 9 Debra Lane in Palm Coast, Florida, 32137, USA.

Nutritional Nature

Presence:	Amount:
Present	High

Explanation

I have a lot of nutrition at the moment while on my EBT food card and with my amount of Marijuana that I have from when I was doing DoorDash. I found a good way to supplement it into baked treats for when I need some Cannabidiols, as well as in a bechamel sauce in the fridge.

Washing Application: External

Presence:	Amount:
Present	Medium-High

Explanation

I tend to take a shower every day, unless I am inactive or am too exhausted from the day. I take one every day now that I ride my bike and now that I realise that I am getting my skin darkened by someone in the night. I am trying to wash it off, it's something like self-tanner.

Washing Application: Internal

Presence:	Amount:
Present	Low-Medium

Explanation

I use a bidet to clean myself after I go to the toilet. This is like a low level of Internal Washing since I am a female. I also brush my teeth every day if not every other day.

Medicinal Elements

Presence:	Amount:
Present	High

Explanation

I am constantly needing to incorporate medicinal elements into my daily routine and diet. I have been having quite a lot of Nicotine Mints everyday. I am also taking some Propranolol, on and off, and Sertraline, occasionally, to detox some semen and milk from William's semen. I am also applying a Daktarin, essential oil, Dermaharmony Zinc Therapy salve on, on a daily basis, to my whole body. I also use it as an ear treatment, finding that Will's family has an issue with some dinosaur milks as well that are warping the ears into a dinosaur form.
