### **Collection 0**

### **Collection 2: Organic Experience**

### **Electrical Usage**

**Presence: Amount:** Medium Present

### **Explanation**

Not much electricity used that effects the environment so much. No street lamps or excessive flood lights that are constantly on. Some hybrid cars around. Back up generators. Animal Control defenses are a problem for the area, along with the telephone wires.

## **Mechanical Usage: Fuel**

**Amount: Presence:** High Present

### **Explanation**

Lawn mowers, blowers, boats, jet skis, cars, back up generators.

### **Environmental Controls: Temperature**

**Amount: Presence:** Medium Present

## **Explanation**

Air Conditioning Units in most houses on during the day, especially during the summer.

## **Environmental Controls: Humidity**

**Amount: Presence:** High Present

## **Explanation**

Many houses need controls for humidity to prevent cracking and decaying wood in the area. There are also people that need relief from the decay through dehumidification, most people, as well as animals in the wild and indoors that need to detox remains are needing this from the remains.

## **Environmental Controls: Filtration**

**Presence:** Amount: High Present

## It's needed for the remains.

**Explanation** 

# **Presence:**

**Nutritional Nature** 

Present Low **Explanation** 

### Not enough variations of wheat or marijuana from the sand storm layer on the soil.

**Amount:** 

#### **Amount: Presence:**

**Washing Application: External** 

Low Present **Explanation** 

### There are amounts of this, such as pressure washing, done for houses, as well as for some

plants, being given water. The wildlife is not given a bath, but they do have some fresh water access and use it to wash their faces.

### **Amount: Presence:**

**Washing Application: Internal** 

Present Low **Explanation** 

## People in their homes are given the opportunity to

brush their teeth. They are also able to douche and detox as needed. Not many detoxing plants in the wild. My sage plant was completely devoured.

**Presence:** 

**Medicinal Elements** 

**Amount:** 

Low

## Present

**Explanation** Very low amounts of food. Some berries present, foliage, weeds, but not much medicinal plants or flowers. People are sort of responsible here to provide the area with medicinal elements. Some

but some allow what it is to remain.

have begun to revive the soil on their property,
