## **Collection 0**

## **Collection 6: Organic Direction Desires Presence: Amount:** Present High **Explanation** So high that people don't know where to start or believe in the possibility of continuing to desire because they feel that it does not happen because there are so many desires. Wildlife desires to become more comfortable in domestic environments. They enjoy home comforts very much in the area. Haven't seen alligators or bears, but everyone else loves the home. The wild dogs are needing domestication checks as well (peeing on new fire hydrant, etc.). **Actions Presence: Amount:** Low Present **Explanation** Low nutrition, causes low actions. Things have been slow in this area. **Endeavors Presence: Amount:** Minimal Present

## **Explanation**

Not many endeavors going on, but with Sam (Frederik) now in the area, things have been changing for the better.
