## Collection 0

**Collection 0: Organic Self** 

**Amount:** 

## Free Will

Present Low

**Presence:** 

**Explanation** Most of the wildlife doesn't have access to nutrition for doing what they need or want to do

completely. Majority of domesticated animals are trapped indoors. Many people are suffering from environmental displacement and are also limited on what they could do. Financially, there isn't much freedom here with the regulations, as well.

May be able to get some plants to contribute, but may also then have to explain why. **Self Love** 

**Amount:** 

**Presence:** Low Present

**Explanation** 

Not much nutrition around to spend time on

loving the self.

**Patience** 

**Presence: Amount:** 

High Present

**Explanation** 

are struggling with feeling captivity.

Very patient community, the wildlife is not quick to respond in anger either. Some indoor animals

**Immediacy Amount: Presence:** 

Low Present **Explanation** People and animals are not really immediate to

respond because of the lack of food. We are also

collectively suffering from water sports thuds

from jet skis and boats jumping off of wake waves or storm waves of some kind from the river and ocean. It causes a thud like a hemmorhage in the ear. There has been a situation in the community where there was a woman being held captive here residentially by a man, but he has now died. Somehow that occurred for a very long time. **Presence Presence: Amount:** 

Low

Present

Hopefulness

**Presence:** 

Present

Present

**Explanation** 

**Explanation** 

**Explanation** There is a sense of presence here, but we are all struggling with the amount of it we can give because of nutrition loss. Camouflaged individuals are also present in the area on a daily basis. It causes panic and paranoia about where they will be, who is with them, if they are violent, and how they got to this community. There are some loud thuds that are hemmorhaging from some people that hide their presence around, sometimes it's like sounds of rape from a bed on the wall, other times it's from someone stomping as they walk. There is also Space Shrapnel that falls here, this also causes loud thuds and sounds.

**Amount:** 

We all feel really hopeful about Organic

Medium-High

Preservation and are in a rush to implement and develop it into the community for the wildlife. Some locals do feel like they don't want to be a part of it, but that's because they don't want to feel the burden of being a part of the Conservation responsibility. It is a protected wildlife reserv, so that truly is a responsibility for living here, but there doesn't seem to be much notice about it or information available on those ends for the residents of this part of the area, falling within the reserve. **Playfulness Presence: Amount:** 

Low

Tourism is a problem somewhat, people on jet skis from some other environment have been

abusive on the river and ocean, not caring about

the wildlife or possibly trying to poach them in sport. Cars and speeding cars are also an issue.

They are killing the marcupials, armadillos, and

boats and surf boards than jet skis and boats, but

the water motor vehicles make that a challenge,

turtles, regularly. We would rather see paddle

especially at their speed. They're making

starvation, not fun. Can sound like giant running with their speed at how they hit the wakes, which makes fear for the entire community, and that comes out over here all the way from the ocean. **Seriousness Presence: Amount:** High Present **Explanation** There really isn't much room to have fun, it's a nice idea but really doing it is like getting eaten alive most of the time because of the amount of

sports damage is caused. Airplanes and sounds

causing starvation. Pressure to behave certain

hunters may be in camo is also a major issue.

like communication coming from the sky is also

ways because camo people may be watching or

Poachers, all the time, fear about them in camo.

There are also ritual human sacrafice executions

territories by some native looking tribe in modern

that are still being witnessed in the wildlife

attire that looks "cute" but then violence is

executed with it.

**Presence:** 

Present

Present

**Truth** 

**Presence:** 

Present

**Explanation** 

**Explanation** 

Fishers, too. It's supposed to be a safe community.

**Self Control Presence: Amount:** High Present **Explanation** High self control, Forest van Eeden left a tent filled with food vacant over night, open with no zipped close openings, and no animals went inside and stole food. They only take the food that is given to them, although they are starving. Learning

**Amount:** 

High

**Explanation** Lawn mowing and blowing sounds are also agents causing starvation in the wildlife, especially with all the agressive tourist or distant gunshot or cannon sounds. Bombs are very audible in the area as well. Learning is used as a healing method for a lot of the local life here. But, it does require nutrition to learn and think, and there isn't much nutrition. Everyone asks for hemp or cannabis. CBD varieties are needed as well as some THC varieties of cannabis, as well as hemp. **Memory Presence: Amount:** 

Low

Everyone is able to remember, but the thudding

damage. Sometimes shrapnel can cause some

and uses it to take out the guilty.

boats are making it painful to remember from ear

injury too, but normally God protects the innocent

**Amount:** 

High

Everyone is very truthful that is in the

community. Reality **Presence: Amount:** Low Present **Explanation** Everything is a bit dreamy because of the amount of stuff going on, but we are still remaining real.

The camouflaged poachers and military people

everything, especially because there isn't really a

wildlife in the area when they need our help or

when God tells us to help them or when we have

**Amount:** 

Low

Tough to perceive all that's going on, tough to

No food to perceive. Primate locals don't get

resources in their living environment either and

recognise some spirits too. Tough to know if it's a

government worker in camouflage or a hacker or poacher. Tough to know when it's a boat or a gun.

make it tough to have to be sensitive to

their food and resources.

**Perception** 

**Presence:**

plants.

**Body** 

**Presence:** 

**Explanation** 

poachers.

**Explanation** 

**Explanation** 

way to group up with them as a civilian or

**Dreaming Presence: Amount:** High Present **Explanation** A lot of people (including wildlife) are seeing the camouflaged people like in a Dream. They are not a real presence, so they become like a dream and go in that way too. God takes them away like a dream. **Existentialism** 

**Amount:** 

Low

Tough to exist when there's a threat getting away

with not existing because God can't take them all

protected the innocent from within them, then

God has to give their chance a way, or they may

be protected by them from space shrapnel God

**Amount:** 

Low

away if there are some out there trying to

**Explanation** We're all pretty low here from how much we have to do to get everything healthy. Soul **Amount: Presence:** 

Low

Low amount of souls present. Mostly non-fruiting

**Amount:** 

Medium Present **Explanation** Plant life is present in the area, but there does seem to be some over grooming being enforced by common human culture, such as expectations for weeds or plants to be ornamental around the house, when living in a forest, somehow. Doesn't

really make sense and feels a bit threatenous to the plant life as well. Feels like Forest is the only human that gets it too and would leave the weeds alone now that old Mark is gone. Constant threats that everything has to be approved by UK representatives also makes it difficult to just be here. Birds, raccoons, aligators, and dogs need more food for them. It looks like the soil is 3 feet under sand in the area from the amount of storms, indicating that God is requesting burial of the remains. **Godliness Presence: Amount:** High Present

Heavy reliance from locals on God. God being the one in authority to keep everyone safe here.

The problem has been the type of process flowing

massive amounts of money into the area but then

angry at us. It feels like a loop that we wish would

come out of camo. Those needing to hide in these

it's a gamble if it will work for them so they get

all just end already. And so that our friends can

areas are combatted by touristic individuals

playing games like hunters, predators, or
